## Our Story

- Since time immemorial, incense sticks or 'agarbattis' has been an integral part of Indian traditions. Thought about a symbol of the transformative power of flame, agarbattis form a significant piece of almost all rituals.
- The company has come a long way since its small beginning in 1972. A person is shown from the waist up, sitting in a meditative pose on a dark mat. They are wearing a grey tank top and have a tattoo on their left arm. They are holding a lit incense stick in their right hand, with a stream of blue smoke rising from it. In the background, there is a red rectangular box containing the Shah Fragrances logo and name. In the foreground, there is a small glass dish containing a red liquid, likely an incense burner, and a matchbox.
